

# LTR 8400T

Our offering to the 400HP mulching equipment market in the common twin track platform. This Lamtrac model differentiates itself from its rivals by featuring an oversize cooling package capable of operating effectively in practically any ambient temperature. The JD450 equivalent track system is built to last and resist to the abuse of large scale contracts and minimizes the time for maintenance by keeping components easily accessible and reducing the day to day check list. This machine focuses on uptime, and generating revenues.
